CURRENT SEWER RATE as of July 01, 2026
.0988 PER CUBIC FOOT (cf)
$9.88 PER 100 CUBIC FEET (ccf)

Our Sewer rate is evaluated annually and changes to that rate are printed on the back side of your regular billing statements.

As part of the budget adoption this year, the sewer rate is being increased from $9.45 to $9.88 per hundred cubic feet to meet our planned infrastructure upgrades and adjust to the unpredictable cost/options of our end product (sludge) disposal. This increase will be effective as of July 1, 2026.
