# MEMORANDUM FROM
# TOWN OF LISBON
# PUBLIC WORKS

**TO:** GLENN MICHALOWSKI, TOWN MANAGER

**FROM:** PATRICK MALOY, PUBLIC WORKS DIRECTOR

**SUBJECT:** WALKING PATH WINTER MAINTENANCE

**DATE:** AUGUST 13, 2024

---

It is my understanding that Harry Moore has requested the town to check into the winter maintenance of the town's walking path.
I have reached out to Four Seasons Landscaping for a quote on how much it would cost to maintain estimated 3.9miles.

My goal would be to utilize our trackless snow blower (T-210) which we own and maintain to clear the walking path. Of course this would be after other town locations are taken care of and if time permits, with the understanding and no pressure to clear the walking trail day of the storm. I believe it would be a great starting point, in the sense that it may be an easier transition into becoming self-sufficient, where we are able to clear sidewalks and crosswalks in house.

Patrick Maloy
Public Works Director
